AVAILABLE ACCESSORIES SOLD SEPERATELY:

RECORD SLEEVES: KirmussAudio record sleeves are frosted, have UV filtering, and are perfect either as a replacement sleeve or for storing newly cleaned and restored records. Non-PVC, they are made with three layers of 4 mil. (not 3) High-Density Polyethylene (HDPE) where a layer of Alkaline Paper is sandwiched between 2 layers of HDPE which adds stability and structure to the sleeve. Paper and rice fillers promote the growth of fungus. Anti-fungal, dust-free, our sleeves are "gentle and record friendly", and are resistant to static build up and protects the record.

ORDERING INFORMATION: Model KA-S1-40: set of 40 Model KA-S1-5 :set of 5

RECORD SUSPENSION PLATFORM: Model KA-RS-1. Made out of machined plastic, replaces the supplied KA-MT-2 felt to support and suspend your records above the work-space rabbit cloth while applying surfactant as well as drying them. Facilitates the wetting and drying of the record.

SURFACTANT REFILL: Model KA-AS-R1: 300 mL (10 oz) refill bottle of surfactant for the KA-A-S-1.
